World Championships News 2

To Representatives of KIF member countries

Unfortunately, the number of newly infected people in Japan is increasing, and the number of newly infected people in Tokyo (with a population of 14 million) today was 962. It has fallen below 1,000 for two days in a row, but it is still high.

However, the number of deaths continues to be zero, and the number of seriously ill people is very small.

After the advent of Omicron strains, the ban on entry from overseas has continued, except for Japanese.

It will depend on the infection situation after this, but the following items will be the conditions for holding and participating in the World Championships.

- The period of quarantine required at the time of entry will be within 3 days.
- All athletes and staffs from each country must have a pcr-inspection within 72 hours before departure and have been proven negative.
- Pass the inspection that is carried out when you enter Japan. (If you do not pass, you will be required to be quarantined or hospitalized and will not be able to participate in the World Championships.)
- All athletes and staffs should use the same accommodation.
- It is assumed that free tourism is not permitted, as individual action plans are required to be submitted.
- The maximum number of representative players in each country is one for each category, and the maximum number of representative players for Japan, the host country, is two for each category.
- The representative players of each country must be members of KIF.

By mid-April, we plan to determine if we can hold the World Championships as scheduled.

The wave of infection had converged in about three months in the past actual cases, so we hope that we will be able to make a positive decision by mid-April.

We also hope that various regulations will be relaxed as the evaluation of Omicron strains progresses.

We booked hotel from check-in on May 24th to check-out on May 31st, assuming there is a three-day quarantine period after entering Japan.

Hotel name Tokyo Toranomon Tokyu Rei Hotel

Address 1-6-6, Atago, Minato-ku, Tokyo

Website <https://tokyuhotels.co.jp/toranomon-r/index.html>

Accommodation expenses during the voluntary quarantine period will be borne by the organizer, the All-Japan KUDO Federation, or the co-sponsor, KIF.

KIFHQ will notify you separately of the tournament participation fee including the accommodation fee after that.

The cost of pcr inspection before departure from each country have to be borne by each country, but the cost of inspection after entering Japan will be borne by the organizer.

Even if the number of participating countries decreases, we would like to emphasize providing the opportunity of the World Championships.

Later on, we will send you a set of rules regarding the tournament.

Next, we plan to disseminate information in the first week of February.
